Dishwashers 400 series

Protects the precious

The handleless dishwasher 400 series features all the little, and not so little, touches you have come to expect from us. A long-stemmed glass holder and a silvercare cartridge accessory ensure the fragile are protected. Zeolite technology allows for gentle drying, while the special accessory of a third drawer can safely stow small bowls and cups.

This is a dishwasher with a deep regard for your prized possessions.

Responsive to your whims

You are able to personalise the eight programmes and four options, shorten the cycle time and temporarily reduce the noise, for instance during a dinner party. All can be achieved easily and remotely from your portable device thanks to the Home Connect app.

The app can introduce you to the myriad of programme options and settings as well as suggest the ideal programme based on factors such as type of dish and level of soiling. Learning from your feedback it is also able to intelligently perfect a bespoke, wash cycle just for you.

Experience enlightenment from within

An illuminating experience

Push to open the dishwasher and you are greeted by the flattering soft glow of the uniquely illuminated interior. The dishwasher with flexible hinges informs that it is in use via a subtle warm white light in the top left corner. For those without flexible hinges, the programme's remaining time is projected upon the floor.

Gentle to the touch

Smooth running rails offer minimal resistance, flowing in and out in a gentle, careful manner, protecting your glass, crystal and crockery with a cushioned closing mechanism. This care is exemplified by the detail that goes into our baskets: silicon tipped folding racks protect delicate glasses and allow an additional non-slip surface for cups to be placed upon. A dedicated area in the upper basket can even be set to receive direct water jets for better and gentler cleaning of glass.

The perfectly illuminated interior of the dishwasher 400 series

A dishwasher for every occasion, the 200 series.

Dishwashers 200 series

The luxury of choice

The dishwashing 200 series offers you a wealth of options. Aesthetically you can choose between handles or not. Would you prefer a subtle lateral info-light to inform you that the dishwasher is on or for the remaining time of the programme to be projected onto the floor? Appreciate an extra cleaning area that directs water specifically in one section for cleaner cups and spotless glasses? Prefer the gentler drying of Zeolite? 60 or a 45 cm niche? These are choices that will help you to arrive at the perfect Gaggenau dishwasher 200 series.

The choices continue

Hone your dishwasher's performance. Personalise programmes and speed up the cycle while it is running or temporarily quietening the dishwasher, useful when entertaining guests. Ask the Home Connect app to suggest the most suitable programme. There is also the opportunity to grade the results, which enables the intelligent dishwasher to improve the cleaning programme.

The Gaggenau difference

What distinguishes every Gaggenau dishwasher 200 series, is the detail. The new flexible basket system secures glasses and crystal with silicon tipped holders that fold down to alternatively offer a non-slip extra shelf. Depending upon the model, smooth running rails or improved wheels provide controlled, effortless movement of the drawers and baskets.

A special accessory, a top, third drawer, gives the user another level to safely stow cups and bowls. And for gentler, more efficient drying, the door can be set to automatically open at the end of the cycle. All that can be done to protect the contents, is done, superbly.

These are details that are more than considered, they are polished to perfection.
