

GAGGENAU

Washing machine and tumble dryer

Treat your clothes, exceptionally

The Gaggenau washing machine and heat pump dryer are the first choice when it comes to a perfectly coordinated laundry system. They boast exceptional results with the ease of spacious, well-lit drums and large portholes so you can load and unload easily.

The washing machine offers a new intelligent dosing system, while the dryer houses a self-cleaning condenser heat exchanger, minimizing manual efforts. Both machines offer automatic programmes and communicate with each other: the dryer sets itself to the correct programme in anticipation of the wash load. Ensure your clothes look their best, effortlessly.
